

Downloading R and R Studio

First you need to download and install R:

Choose (what is most likely) the first link

[Download R for Windows - CRAN](https://cran.r-project.org/bin/windows)

<https://cran.r-project.org> › [bin](#) › [windows](#) ▼

contrib, Binaries of contributed CRAN packages (for **R** >= 2.13.x; managed by Uwe Ligges).

There is also information on third party software available for CRAN ...

[R for Windows](#) · [Rtools](#) · [Of /bin/windows/contrib](#) · [Third party software available ...](#)

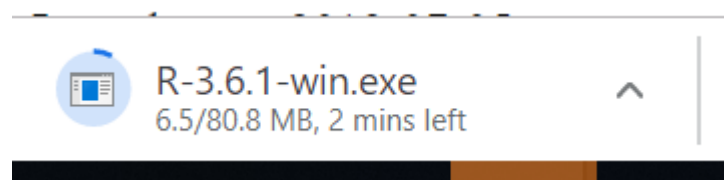

I'm a Windows user, so I select this option:

[Download R 3.6.1 for Windows](#) (81 megabytes, 32/64 bit)

[Installation and other instructions](#)

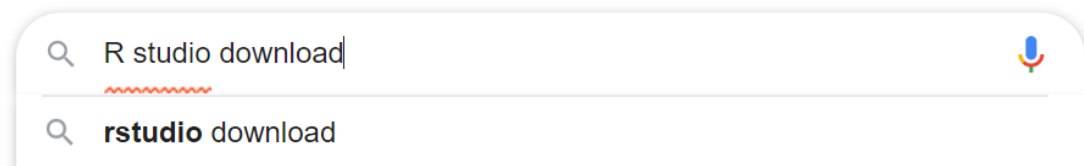

[New features in this version](#)

This downloads R. On windows (and using Google Chrome), your download will appear at the bottom of the browser.

When downloaded, click the file and follow the prompts. I used all of the standard settings.

Installing R Studio

Yes Google, I meant Rstudio, click (what is most likely) the first link:

Did you mean: **Rstudio** download

Download RStudio - RStudio
